JOSE RIDWAN OLAKUNLE

UI/UX DESIGNER | FRAMER DEVELOPER

Mobile: +234 916-393-4285 | Email:Ridwanjose223@gmail.com

Lagos, Nigeria.

PERSONAL PROFILE

Innovative UI/UX Designer and Product Strategist with a strong background in crafting human-centered digital experiences for fintech, e-commerce, and enterprise applications. Skilled at transforming complex requirements into elegant, intuitive designs that balance functionality with visual appeal. Experienced in end-to-end design processes, including user research, information architecture, prototyping, and creating scalable design systems. Known for driving collaboration across product, engineering, and marketing teams to deliver seamless, conversion-focused solutions. Passionate about using design thinking and data-driven insights to solve problems and create impactful user experiences.

SKILLS

Design Tools & Software:

- Figma, Adobe XD, Miro,Framer

Design Capabilities:

- Wireframing & Prototyping, User Research, Usability Testing, Responsive Design, Accessibility, Interaction Design, Design Systems

Collaboration & Process:

- Agile Methodology, Cross-Functional Team Collaboration, Sprint Planning, Communication & Presentation, Feedback Iteration

EXPERIENCE

CONTRACT UI/UX DESIGNER | Cloud Solar **July 2025 – Aug 2025**

- Conducting user research and competitor analysis to define product goals and user needs.
- Collaborating closely with the CEO and developers to align business goals with user-centered design.

- Designing user flows, wireframes, and high-fidelity prototypes for a solar e-commerce and installation booking app.
- Creating a scalable design system to ensure UI consistency across screens.
- Analyzing user feedback and market trends to improve app usability and drive customer engagement.

CONTRACT UI/UX DESIGNER | Tecnocrat IT **March 2025 – May 2025**

- Designed tailored experiences for each user role, focusing on ease of use, transparency, and quick onboarding.
- Mapped out role-based journeys and dashboards to support varied functionality across transactions, tracking, and account management.
- Collaborated in agile sprints with the product and dev team, conducting usability reviews and optimizing critical flows.

CONTRACT UI/UX DESIGNER | Payfeer **Nov 2024 – Dec 2024**

- Led the UX design for Payfeer's fiat exchange platform, focusing on creating user trust and reducing friction in currency conversion flows.
- Defined user personas and mapped out end-to-end exchange journeys based on research and behavior analysis.
- Developed interactive wireframes and mockups optimized for both desktop and mobile use.
- Worked with stakeholders to prioritize features, ensuring alignment between business goals and user needs.
- Contributed to the creation of a modular UI component library to support consistency across the app's interface.

CONTRACT UI/UX DESIGNER | Thrively **Oct 2024 – Nov 2024**

- Designed user experiences for a digital group-thrift (ajo/esusu) platform, focused on transparency and trust.
- Conducted research on behavioral saving patterns and studied platforms like PiggyVest and Cowrywise to inform feature design.
- Created intuitive flows for group creation, contribution scheduling, and fund rotation, ensuring clarity at every step.
- Worked with developers to prototype and test secure contribution and payout interfaces.

- Ensured accessibility and simplicity in user onboarding, reducing drop-off rates during group setup.

UI/UX DESIGN INTERN | Tecnocrat IT **Feb 2024 – Sep 2024**

- Redesigned the ERP interface for lead management, pipeline tracking, and sales reporting to improve usability and workflow clarity.
- Worked closely with product managers to understand daily bottlenecks and translated them into streamlined user flows.
- Simplified complex dashboards through modular layouts and progressive disclosure, improving adoption by non-technical users.
- Delivered annotated design specs and assets to developers, ensuring seamless implementation across modules.

UI/UX DESIGN INTERN | Craftitec Limited **Feb 2024 – Sep 2024**

E-commerce Live Video Platform:

- Supported the design of a live shopping experience integrating video streaming with product discovery.
- Researched live commerce trends across Amazon Live, TikTok Shop, and Instagram to inform UX patterns.
- Designed wireframes and interactive prototypes to optimize product browsing during live sessions.

Fiat Exchange App:

- Contributed to the UX of a peer-to-peer currency exchange app, ensuring clarity in conversion and negotiation flows.
- Conducted user research and competitive analysis to identify gaps in existing platforms.
- Developed a design system that ensured consistency across UI components and simplified developer handoff.

EDUCATION

- **Lead City University:** B.Sc. Software Engineering, Second Class Upper .
